**PRODUCT INFORMATION**

**SoilStart® 7-1-1** is marketed as an all natural commercial fertilizer whose nutrients are derived from condensed grain fermentation solubles. **SoilStart® 7-1-1** has been formulated to provide the grower with an effective combination of slow and quick release nitrogen for pre-plant applications. **SoilStart® 7-1-1** is suitable for use on both organic and conventional agricultural soils.

**WARRANTY**

Converted Organics Inc. makes no warranty or condition, express, implied or statutory, whatsoever, with respect to the product's condition, performance or its adequacy for the Purchaser's purpose or uses, which extend beyond the use of the product under normal conditions in accordance with the statements made on this label.

**APPLICATION RECOMMENDATIONS**

**Row Crops, Tree/Vine Crops:**

For typical applications, it is recommended that **SoilStart® 7-1-1** be sidedressed or soil incorporated at a rate of 300 to 700 lbs. per acre. It is further recommended that this product be applied early in the growing season to allow sufficient time for product breakdown and availability of nitrogen. Dosage and application rates may vary for each crop.

**Turf:**

Apply 50 lbs. of **SoilStart® 7-1-1** per 3,000 sq. ft. of area. Water after fertilizing and keep turf moist for 3 to 4 days. Apply 2 to 4 times per year. Your local conditions and results may require you to modify application rates.

The above application recommendations are guidelines for a broad spectrum of crops and soil conditions. If you would like application recommendations for your specific crop and soil condition, please contact your local sales representative.
